

Celebrating yet another great Feat

MUC Oil & Gas Engineering Consultancy brings the SOCAR AURORA Fujairah Terminal (SAFT), the second phase of the Project to Completion, 4 weeks ahead of Schedule.

On October 2, MUC Oil & Gas Engineering Consultancy (MUCOG) celebrated the successful completion of the second phase of the SOCAR AURORA Fujairah Terminal (SAFT) Project at Hilton Hotel, Sharjah.

After the successful completion of the Front End Engineering Design (FEED) for SAFT, Phase 2 Project, MUCOG was appointed to provide Project Management Consultancy (PMC) Services for the same Project.

Ammar Kutait, CEO of SAFT stated *"We are delighted to have been able to complete this second phase four weeks ahead of schedule and well within budget."*

In recognition of the efforts of the Project Team who has contributed to the successful completion of the project, MUCOG organized a celebration at Hilton Hotel, Sharjah. Certificates of Appreciation were presented by the Managing Director of MUCOG to the Project team members. Senior Executives from SAFT attended the event.

Speaking at the event, Mohammad Y. Shahin, Managing Director, MUCOG commented *"We delivered ahead of schedule; once again we demonstrate our commitment to our deepest core values - Integrity and Excellence. We have stepped up to take more challenges. Your projects are in our safe hands."*

Since its inception, MUCOG has been in the front run to provide unmatched Engineering and Project Management Consultancy Services to its Clients in the region and beyond. MUCOG's name has been associated to a number of the most prestigious Clients and Projects in the region. This is a testament of the value MUCOG has successfully been able to bring to the industry over the past few years.

Managing Director MUCOG, Mohammad Shahin, (L) is greating Terminal Manager SAFT, Nizamuddin Noorali, (R) at the event.
